

Method, Device, And Mobile Tool For Remotely Creating Electronic Albums

Abstract of the Disclosure

Program software for editing digital picture data into electronic albums is provided in a server 2 connected to the Internet 4. The server 2 is made capable of receiving picture data taken with digital cameras 3, 5, time data when the pictures are taken, position data acquired at mobile terminals 1a, 1b, and time data at which the position data are acquired. The received pieces of data are associated with each other and made into electronic albums using the program software.
